

# President Obama: ABORTION is not health care.

In his commencement address at the University of Notre Dame, President Barack Obama called for “common ground” on the abortion issue, and stated his desire to reduce abortion, which he called a “heart-wrenching decision.”

We now call on President Obama to follow through on this commitment by ensuring that any reform of the nation's health care system:

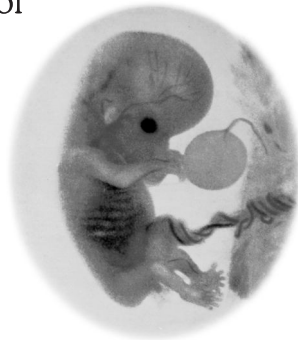

**Provide support to the 3,000 pro-life pregnancy resource centers** all across the country struggling to meet the needs of pregnant women.

**Withdraw federal funding from Planned Parenthood**, the nation's largest abortion provider, which received \$349,600,000 of taxpayers' money last year.

**Maintain strong conscience protections** so doctors and other health care professionals will be free to care for their patients without participating in abortion.

We invite President Obama to join the pro-life movement in providing compassion and support to the thousands of women in the United States who face an unintended pregnancy and think abortion is their only option.

**Find real common ground on abortion at [ProLifeAction.org](http://ProLifeAction.org).**
